# Introducing ProCAD PowerStation 32 Version 7.0 for Windows 9x, ME, 2K,NT & XP (Internet Enabled...)

Interactive CAD Systems, P.O. Box 4182, Santa Clara, CA 95056 (916) 684-1971, Fax:(916)684-8809, Web: www.icadsys.com

January 25, 2003

Interactive CAD Systems is proud to announce a major upgrade to it's EDA product line for windows. Captioned ProCAD PowerStation 32 Version 7.0 for Windows 9x/ME/2K/NT/XP. This version is upward compatible with its predecessor V6.0 and ProCAD Xtra for DOS, while introducing some enhanced features and new commands including support for long file names, long folder and directory path statements. All functionality and compatibilities are preserved across platforms with earlier versions of ProCAD Advanced for Windows and ProCAD Xtra for DOS

Product Highlights...

1. ProCAD PowerStation 32 now supports integrated SPECCTRA real time internet remote routing. This service allows you to log onto our high speed servers and execute SPECCTRA in real time to route your board. You have complete control over SPECCTRA operation and routed results are automatically applied to your local design. It is just as if you have a full blown $100K plus SPECCTRA on your local machine.

2. Placing special symbols such as power/ground, in/off sheet, bus/entry, etc is now automated with these new composite commands selectable from the floating/dockable place tool bar. These are command equivalence to the corresponding OrCAD capture commands.

3. You are no longer restricted to 8 character file and library names or 24 character path statement. ProCAD now supports up to 256 character path name and 64 character file names including library names.

4. Full support for OrCAD Capture 9.x project (dsn) and library (olb) binary import. You can now import evaluation designs from data books which are usually in OrCAD format into ProCAD. Also you automatically have access to thousands of device geometries (library symbols) which are provided by component manufacturers in OrCAD format. Coupled with our PCB component wizard, you'll rarely have to create your own symbols.

5. ProCAD now supports import of Pads PowerPCB ASCII formats. In addition to our already supported Pads PCB/2000 formats, you can now import virtually all Pads PCB files into ProCAD.

Other Features...

Completely redesigned dockable and scrollable integrated utility tools (Netlister, Print Manager, Gerber Manager, NC Drill, DBF/LIB archive utility, DXF, etc), through the use of DLL. Professional Edition users can also invoke these tools as separate programs in a multi-tasking environment.

Now easier to use than ever !.

Improved and very intuitive XP style friendly user interface with dockable tool bars and windows. We have made hundred of improvements to various parts of the code to make it virtually flawless, runs cleaner, faster, and looks and feels nicer. If you are familiar with Microsoft XP applications (Word, Excel, Explorer, etc), you already know how to navigate through ProCAD PowerStation 32 v7.0. New users can become proficient in days not months - existing users are also covered - no new learning curve!.

OnLine Documentation...

ProCAD now uses HTML help system - this virtually eliminates the need for printed manuals. We have however, included complete manuals (User's, Utilities and Reference) on CD in Acrobat PDF format. The On-line manual is also hyper linked which makes it easy to pin point a desired topic of interest. Hardcopy manuals are available at nominal cost.

Ordering Information...

ProCAD PowerStation 32 is available in three configurations: Please complete the Order form worksheet below and e-mail or fax it to us. You may also place your order via the internet (especially if you elect not to order the printed supplemental manual and CD media - download only).

Note: The Express Edition does not include the local Autorouter, DXF, and SPECCTRA interfaces. The Standard Edition does not include any external utilities. You may not multi-task any of the built in utilities such as PrintManager, Netlister, etc. Also, network and database/library sharing are not supported. The Professional Edition has all the features of the standard edition with added support for multi-tasking and network support. Please visit our website (www.icadsys.com/price_list.asp) for details or give us a call.

Maintenance Contract...

When you purchase a maintenance contract, you will be entitled to incremental updates for bug fixes and enhancements using the Automatic Software Update feature via the internet, Automatic Library downloads from our FTP server over the internet using the IAC of the Library Manager, Special discount on new products, unlimited phone support, and of course free program updates (shipping & handling charges extra). If you have access to the Internet (or plan to have one), you are strongly urged to purchase the maintenance contract and automatically stay current.

If you do not purchase a maintenance contract, you will be entitled to unlimited phone support for the first 90 days, and limited support by E-Mail or Fax thereafter. You also may not receive incremental updates for minor enhancement and bug fixes. You will be notified when there is an upgrade and the cost to acquire one if you so desire.

Still Evaluating ProCAD ???...

For those of you still using the evaluation or lite package, we will upgrade you to the full system at 1/2 of the list price, and still give you full credit for your evaluation or lite package!!!. How can you ever go wrong ?. You should hurry since this special 50% discount offer expires April 25, 2003. Please call us or fax in your order and start using the only Windows based CAD systems with Dynamic Real Time Total Integration® - Single EDA solution for Schematic through PCB Layout in the industry..... And now with seamless integration with interactive SPECCTRA.

Tired of Copy Protection ???...

No more dongles, key disks or clumsy copy protection schemes to worry about. ProCAD PowerStation 32 V7.0 is NOT COPY PROTECTED. We trust that you'll respect our copyright notice and license agreement. If you love our EDA solution, spread the word, if you don't, let us know and we'll try our best to accommodate your needs.

1. Upgrade prices are valid when order is placed on or before July 31, 2003.
2. Copy protection removal from our products DOES NOT negate the license agreement. You may NOT operate the software on more than 1 (one) computer simultaneously.

Update & Upgrade Order Form Worksheet

☐ ProCAD PowerStation 32 v7.0 *Professional Edition* Upgrade (Serial #_____)	$599.00
